

Bed Details

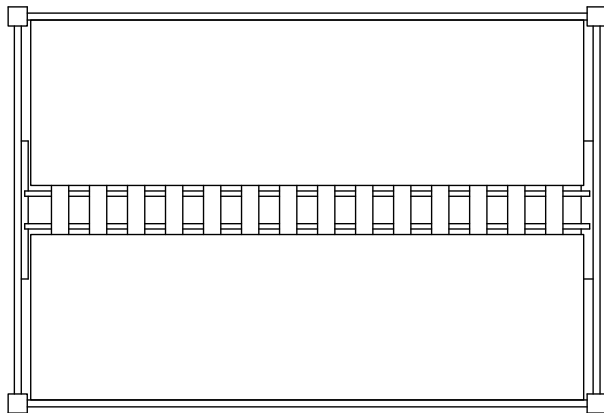

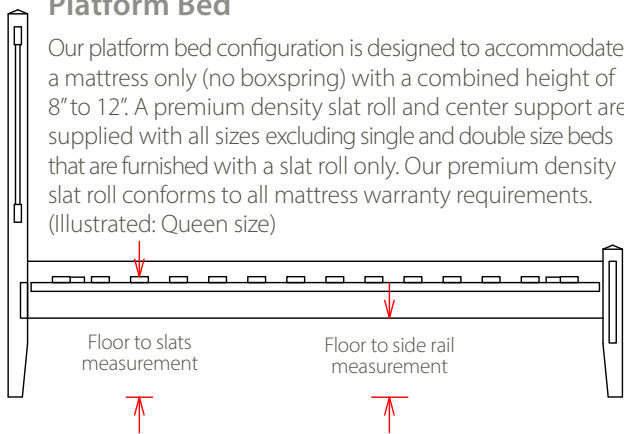

Standard Bed

Our standard bed configuration is designed to accommodate a boxspring and mattress with a combined height of 18" to 22". A slat roll and center support are supplied with all sizes excluding single and double size beds that are furnished with a slat roll only. (Illustrated: Queen size)

Platform Bed

Our platform bed configuration is designed to accommodate a mattress only (no boxspring) with a combined height of 8" to 12". A premium density slat roll and center support are supplied with all sizes excluding single and double size beds that are furnished with a slat roll only. Our premium density slat roll conforms to all mattress warranty requirements. (Illustrated: Queen size)

Storage Bed

Our platform bed configuration is designed to accommodate a mattress only with a combined height of 8" to 12". A premium density slat roll, storage drawer units on both sides, and two dust covers are supplied with all sizes excluding single beds that include a premium slat roll, storage drawer unit on one side, "tall" side rail, and one dust cover. Our premium density slat roll conforms to all mattress warranty requirements. (Illustrated: Queen size)
